[yellow tail] is instantly recognisable, both for its appearance and its personality. The following tasting note is designed to give you an insight into [yellow tail] Moscato, but if you want to cut to the chase, it's simple... drink it, share it, and enjoy it.

VINTAGE 2010

South Eastern Australia experienced a lot of rain in the winter and spring of 2009 which provided good soil moisture for the rest of the season. A heat wave in summer spurred healthy canopy growth and early fruit development. March 2010 was much cooler and slowed ripening, allowing time for ideal flavour development.

The grapes were regularly quality tested in the lead up to harvest and delivered to the winery in ideal condition – plump, healthy and with a good balance of water, sugar and flavour.

REGION South Eastern Australia.

WINE [yellow tail] Moscato is made with grapes sourced from the highest quality vineyards. The fruit is harvested in the cool of night to retain maximum freshness and flavour. Free run juice and light pressings are used to ensure softness on the palate. Once completed, the wine is cold stabilised and cold filtered to preserve rich aromas and freshness. The wine is bottled at the winery in Yenda, outside Griffith, New South Wales.
